

Living on the Edge

Grade Level(s) Middle School 6-8

Students use a favorite greeting card or post card to **EXTEND** the edges. Students are to match the original art work, composition and colors so that the card disappears into the drawing.

PROCEDURE:

1. Students begin by doing a rough draft of their ideas. Next, they place their card anywhere on the 12 x 18 white drawing paper.
2. Students sketch their idea in light pencil, trying to match the original composition of the card.
3. After drawing is approved, students begin using colored pencil to **MATCH** the original colors of the card. This is a great lesson for color mixing, shading, value work.
